

Virginia Sheriffs' Institute Certification Program

Application for Recertification

Completing the Application for Recertification

The first step in determining if an applicant is eligible for recertification is the careful review of the program guidebook to ensure understanding of the eligibility requirements, the overall certification process, and what is required to apply.

If it is determined that the requirements are met, applicants should compile applicable supporting documentation as detailed in the guidebook and follow the guidance below to complete the application form.

Questions regarding the certification program and any of the eligibility or certification standards may be submitted to vsicert@virginiasheriffs.org.

Section 1. Applicant Information

In this section, applicants provide contact information as requested on the form and indicate current position as a Sheriff or a Deputy.

Section 2. Career Development

C. Training

In the first part of this section, applicants list details about the specific training courses/activities they choose to claim for each Required Training topic (Leadership, Ethics, Cultural Diversity, Community Policing and Legal/Employment Law) in the designated parts of the form. Applicants complete a separate entry for each individual training course/activity for which points are being claimed. For each entry, applicants indicate the total length of the course/activity in hours, the hours being claimed for the Required Training topic, and the corresponding point value, with one hour of a training course/activity equating to one point. For each Required Training topic, applicants add the points claimed for each training course/activity and enter the total sum in the designated box on the form. Once the total point sums of each Required Training topic have been calculated and entered, applicants record those five totals in the Summary of Total Required Training Points box.

In the second part of this section, applicants list details about the specific training courses/activities they choose to claim as Additional Training toward the overall point requirement for VSI Recertification. Applicants complete a separate entry for each individual training course/activity for which points are being claimed. Applicants do not need to list entire training history. For each entry, applicants indicate the total length of the course/activity in hours, the hours being claimed, and the corresponding point value with one hour of a training course/activity equating to one point. Applicants add the points claimed for each training course/activity and enter the total sum in the designated box on the form.

As a final step for this section, applicants add the total Required Training points and the total Additional Training points and enter the sum in the designated box on the form.

D. Professional Development

In the first part of this section, applicants list details about the Public Safety Courses and Conferences they choose to claim toward the Professional Development point requirement. Applicants complete a separate entry for each individual activity for which points are being claimed, and designate the type of activity by checking the corresponding box. The type of activity dictates the point value for each specific entry, as detailed in the guidebook and on the application form. Applicants add the points claimed for each Public Safety Course and Conference activity and enter the total sum in the designated box on the form.

In the second part of this section, applicants indicate Service as VSA and/or VSI president, if applicable, listing each term being claimed on a separate line. Applicants add the points claimed for each presidential term and enter the total sum in the designated box on the form.

In the fourth part of this section, applicants list details about the Instruction of Public Safety Training courses they choose to claim toward the Professional Development point requirement. Applicants complete a separate entry for each individual instructional activity for which points are being claimed. For each entry, applicants indicate the total hours of instruction, the hours being claimed, and the corresponding point value, with one instructional hour equating to one point. Applicants add the points claimed for each instructional activity and enter the total sum in the designated box on the form.

As a final step for this section, applicants add the total Public Safety Course and Conference points, total Service as VSA and/or VSI President points, total College Coursework points, and total Instruction of Public Safety Training points and enter the sum in the designated box on the form.

Section 3. Cumulative Career Development Points

In this section, applicants enter the total points recorded in each of the following parts of the application:

C. Training

D. Professional Development

As a final step in this section, applicants add the two totals and enter the sum in the designated box on the form. The cumulative total must be equal to or greater than the minimum required points for recertification.

Section 4. Applicant Affirmation

In this section, applicants affirm the completion of each required part of the VSI Certification Program process and sign the application. Applicants who are deputies must also obtain the signature of their sheriff in this section.
